## **TO WHOM IT MAY CONCERN**

We have engaged Tony from the start of our business migration process.

We found that he is very well informed and knows exactly what is required from the authorities concerned. He monitors our progress from time to time and ensures that we have everything properly documented and even assisted us in getting some of the paperwork done.

We are glad and confident that Tony will see us through this process successfully and we highly recommend his expertise and guidance to whoever is pursuing the same dream as us.

Sincerely,

VINCENT & AUDREY ONG
